## FRONTEND DEVELOPER

---

As a fresh graduate with a Bachelor's in Computer Application, I am eager to secure a challenging opportunity as a Frontend Developer. With a strong foundation in modern programming languages, I am equipped to develop dynamic and engaging user interfaces. I have experience working with various APIs and databases, enabling me to integrate different systems seamlessly. As a quick learner with a passion for technology, I am excited to work collaboratively with a team to build innovative and intuitive software solutions.

## TECHNICAL SKILLS

---

<b>Languages</b>	: JavaScript, SQL, HTML, CSS, Java, jQuery
<b>Frameworks</b>	: React.js, Next.js, Express, Node.js, Jest
<b>Libraries</b>	: TailwindCSS, Redux, React Router
<b>Databases</b>	: MongoDB, MySQL, Sanity CMS
<b>OS</b>	: Linux distributions (Ubuntu, Kali Linux), Microsoft Windows
<b>Dev Tools</b>	: Eclipse, Visual Studio, Webpack, Babel, Git, Github

## PROJECTS

---

<b><u>Social Media App</u></b>	<i>Nextjs, React, TailwindCSS, Sanity, Git</i>	<a href="#"><u>Source Code</u></a>
<ul style="list-style-type: none"><li>• A <b>CRUD application</b> that features advanced social media functionalities. The app is built using HTML, CSS, JavaScript, and Node.js. The app includes Google Authentication, which enables users to sign in with their Google accounts.</li><li>• Users can create, edit, delete and save posts, as well as like and comment on other people's posts. The app also includes a search and filter feature for images, making it easy for users to find and discover new content.</li><li>• Deployed on GitHub pages via GitHub Actions</li></ul>		
<b><u>Ecommerce Web App</u></b>	<i>Nextjs, React, TailwindCSS, JavaScript, Sanity, Git</i>	<a href="#"><u>Source Code</u></a>
<ul style="list-style-type: none"><li>• This project is an eCommerce web application that features modern design and animations, built using HTML, CSS, JavaScript, and React. The app includes the ability to add and edit products on the go using a headless CMS called Sanity.</li><li>• Users can browse the products and add them to the cart, and the app features advanced cart functionalities such as the ability to apply coupons and calculate shipping costs. The app also includes a checkout page with complete integration with Stripe so that users can make real payments securely.</li><li>• The product listing and product page features a responsive and user-friendly design that enables users to quickly find and purchase products. The app was built with user experience in mind, ensuring that users can easily navigate and complete their purchases without any friction.</li></ul>		

## EDUCATION

---

<b>Nagpur University</b> <i>Bachelor's in Computer Application</i>	Nagpur, Maharashtra, India Aug 2019 – Aug 2022
Related Courses: DBMS, Software Testing, Java, Networking, Operating Systems
